FLAT ROCK *Series 1* & 2ND LOFT

With its open design and spacious living area, the Flat Rock Series is designed for couples or families looking to escape and relax. The Flat Rock's unique high-vaulted ceiling creates an ambiance truly unparalleled in traditional log home living. Beginning at 1,205 square feet, the Flat Rock offers two sizable bedrooms and two full bathrooms with ample storage space.

The comfortable living room flows openly to the beautiful kitchen and dining areas, allowing for easy conversations between you and your loved ones. Featuring a tremendously popular island-style design, the kitchen includes an extra built-in sink, making post-company clean-up a breeze.

The floor plan's spacious loft is a popular option with most families, especially because of its versatility functioning as an extra bedroom, office, game room, or an additional storage room.

The master bedroom provides a peaceful retreat with large picture windows and outdoor access. For further relaxation, the master bath offers a large whirlpool tub and popular dual sinks.

NOTE: The model pictured above represents an example of a home in this series, not an exact replica of the home you will have built. Each of our homes are customized for the buyer and it is possible that they will differ from one another.
