HIGHLANDS *Series 1*

This popular cabin may quickly become your favorite escape with its spacious two-story design, luxurious master suite, sprawling porch space and loads of extras that make it hard to believe you're in a log cabin.

Starting at 1,739 square feet, this three-bedroom design provides the feeling of a family space far beyond its square footage, and comfortable livability combined with an extremely functional floor plan. A desired feature of the Highlands design is the convenient mud-room located off the rear of the home. The large front porch welcomes you and your visitors home to a spacious living room just off the kitchen and dining area. A convenient powder room services the main level, making entertaining neighbors easy. The gourmet kitchen provides a convenient pass-thru design to the dining area and wet bar for gatherings. The Highlands I has the master suite and bath on the first floor and two more bedrooms with a bath on the second floor.

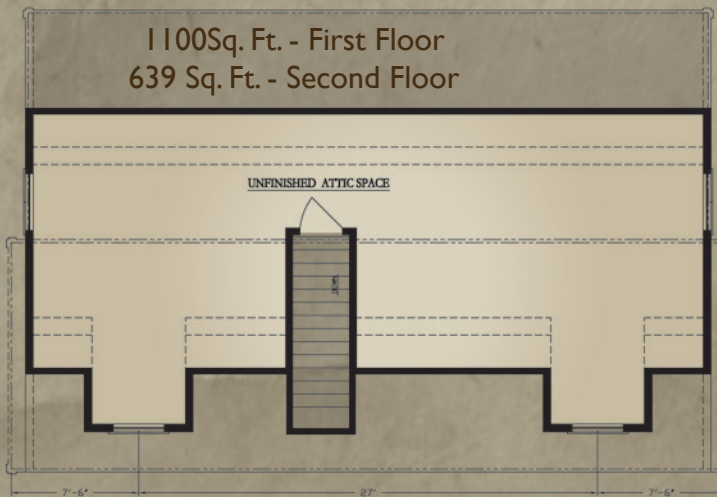

NOTE: The model pictured above represents an example of a home in this series, not an exact replica of the home you will have built. Each of our homes are customized for the buyer and it is possible that they will differ from one another.
